

I'm writing a blog post about [Käseätze](#) but it isn't going the way I want. Fortunately while I've been staring at my computer this wonderful box arrived. This is a [Fiddlehead Mittens](#) kit from

[Tanis Fiber Arts](#)

. I've been wanting to order one of these for ages and when I saw they were going to be discontinued I realized it was time to act. Yarn in the mail is always fun but somehow a kit is even better. I'm going to have some fancy mittens this winter. I love that Tanis always puts a postcard in with your yarn too. They're always bright and colourful and something I can send off to someone else to brighten their day.
